# WELCOME TO THE NEW REVOLUTION IN PROFESSIONAL WAXING

*Beauty paradigms  
have changed.*

---

- ✔ We respect and care for the environment.
- ✔ The slow living and slow food movements are growing, and demand for non-invasive treatments and mind-body connection are increasing.
- ✔ Beauty and well-being are now inseparable.
- ✔ Going back to basics, demand for traditional waxing is rising as skin intolerances and photosensitivity proliferate
  - It's healthier, less invasive and more pleasurable.
  - It doesn't have any side effects or contraindications.
- ✔ It doesn't alter skin microbiota.
- ✔ It exfoliates before and moisturizes after waxing.
- ✔ It doesn't affect lymph nodes like other more aggressive systems and focuses on total customer well-being.

# THE COLLECTION ROLL-ON

Features 6 active principles taken from Mediterranean plants.

Roll-on waxing produces outstanding results. The waxes' resins mean they can be used at higher temperatures than low-melting-point waxes but, because the strip is spread much thinner, the wax cools almost immediately, avoiding that burning feeling. Once applied, the wax is easily removed with hygienic waxing strips.

Naturdepil roll-on's semi-creamy texture ensures flawless removal on sensitive skin types. Smooth and highly fluid. Its powdered leaf and flower content gives the treatment a distinctive and highly original feel.

## BENEFITS:

- Single-use · Hygienic · Fast
- Effective · Practical · Long-lasting
- No burning sensation

-----------------------	--	---

## Usage:

Plug the heater into a wall socket and insert the refill. Wait until the wax reaches application temperature (reached when the roll-on slides easily over a waxing strip). To apply the wax, slide the roll-on over the waxing area in the direction of hair growth. Next, place a waxing strip over the wax and gently press down before tugging it off in the opposite direction to hair growth, keeping the strip parallel to the skin and using the other hand to keep the surrounding skin taut, especially in areas where the skin is more flaccid. Before waxing, apply Naturdepil Prepil Gel. After waxing, apply Naturdepil post-waxing cosmetics.

*Lavender possesses relaxing, aromatherapeutic, detoxifying, antioxidant and softening properties.*
